Why earn a Google Career Certificate?

A path to in-demand jobs:
Connect with top employers, like Better.com, Deloitte, Infosys, Snap Inc., Target, and Verizon, that are currently hiring.

130+
employers in the Google Career Certificates Employer Consortium.

No experience necessary:
Learn job-ready skills, even with no relevant experience.

1,300,000+
in-demand job openings across certificate fields.[2]

Learn at your own pace:
Complete the online program on your own terms.

Under 10 hours
of flexible study per week.[1]

Stand out to employers:
Make your resume competitive with a credential from Google.

82%
of graduates report a positive career impact within six months.[3]

Put your skills to work.

Get a job in a high-growth field, with help from Google.

Google UX Design Certificate

User experience (UX) designers make technology easier and more enjoyable to use. Grasp the foundations of UX design and research while building low-fidelity designs and wireframes, creating high-fidelity prototypes, and testing.

Get started at grow.google/uxdesign.

$58,600
average entry-level salary in UX design[4]

Google Data Analytics Certificate

Data analysts make use of data to help inform important business decisions. Develop confidence navigating the data life cycle using tools and platforms to process, analyze, visualize, and gain insights from data.

Get started at grow.google/dataanalytics.

$67,900
average entry-level salary in data analytics[4]

Google Project Management Certificate

Project managers are responsible for planning and overseeing projects to ensure they are completed efficiently. Learn the foundations of traditional project management and agile principles while applying these methodologies to real-world scenarios.

Get started at grow.google/projectmanagement.

$59,000
